Workflow for creating microlearning content in the website

Website: https://micromobilelearning.org/

Who is this for?

Subject matter experts (SMEs) in Research Methods (such as lecturers and academics) who want to deliver engaging microlearning via this website to students.

• SME completes Learning Design Template.

- •To do this SME must:
- Identify learning objectives
- •Break down topic (Course) into subtopics (Lessons)
- •Arrange sub-topics into 'what', 'why', 'how'
- Identify appropriate 'interactions' from those available in website (H5P) <u>https://h5p.org/content-types-and-applications</u>

Design

Build

- SME requests to be set-up on the website by Raymond Lee • SME watches on-boarding video on how to create content
- SME builds their course and lessons in LearnPress creating their pages and building out their interactions

•SME notifies Raymond Lee and Laura Lee-Gibbs that content is ready for review

•OPTIONAL consultation (SME can request a 30 min meeting with Raymond Lee & Laura Lee-Gibbs if required)

> Review (OPTIONAL consultation phase)

Publish

•Raymond Lee publishes approved content on website
